

Protecting species together • Researching together • Learning together

LET'S PROTECT AND OBSERVE AMPHIBIANS TOGETHER

HOW CAN I GET INVOLVED?

- You will receive a toolkit from SIAS containing a mini-pond (toad tub)  +  + 

- You set up the pond in your garden / you already have a pond in your garden

- Every two weeks, you'll use the iNaturalist app to report which animals have already settled in your pond
- You will become part of a community discussing amphibians, dragonflies and aquatic animals, and you will receive a newsletter as well as invitations to themed excursions

Register by 1st February
to receive your mini pond
(Mouke-Bidden)

3 REASONS TO GET INVOLVED

PROTECTING SPECIES TOGETHER

A pond creates a habitat (a nursery for toads and other creatures) and connects habitats (stepping stones)

RESEARCHING TOGETHER

Your observations help us understand where different species are found and how they migrate

LEARNING TOGETHER

You and your children will discover life in and around the water

**Would you like more
information about the project
and the species that can be
observed in a pond?**

Come along to our information
evening:

24 November 2026 • 7pm
"A Wiewesch" in Manternach
